PROJECTS

🔗 TO-DO MERN-DAILY | REACT • EXPRESS • MONGODB • NODEJS

- Used JWT, Cookie-Parser, and Bcryptjs for authentication, cookie-saving into client cookies, and hashing of password respectively.
- Used CRUD operations in the Nodejs controllers to save update and delete todo notes from Mongo Database(Mongoose).

🔗 VEND CAR | SCIKIT-LEARN • LINEAR REGRESSION • FLASK • HTML-CSS

- Used Dataset from Quikr website to train our scikit learn model. Using Pipeline to predict a given dataset price of car on basis of linear regression.
- Splitted the dataset to 20 percent test and rest train, on which we random wise choose particular training which gives best r2score.

🔗 DAILY EXPENSA | REACT • HTML • CSS

- Used React Hooks and Components for tracking day-to-day expenses.

🔗 BARRICADE BREAKER | JAVA • SWING • JWT

- Used Java and it's GUI frameworks to develop a wall-breaker interactive game.
